of the meeting dated 22nd march 2019.

8. i affirm that all of the statements made in the affidavit and court applications are true.
9. i affirm that i voted in favour of the Ngati Rangihou Corrangie Hapu making an application to court and to deal with matters arising in relation to it.
10. i affirm that i voted in favour of making the applications to the federal court for the following matters:
 - a) Winding up and liquidation (including compensation) application.
 - b) Criminal charges application.
11. i hereby inform the registrar and judge that i write in the same way as the bible (lower case with sentence capitals only) as we walk with god's laws only. i choose not to use capitals as it is significant of the dead man's language . i am very mindful not to cut off my own head (i) through the use of a capital I; or be victimised; or be derogatory; or declined; with dog latin language. i will not autograph any document in a box which is significant of signing on my coffin and i am the notary for my affidavit.

historical information about rangihou sacred lands parramatta

12. As a member of ngati rangihou corrangie hapu, i have been privy to nine years of correspondence sent to various heads of alleged authority pertaining to rangihou sacred lands and burial site, new zealand street, parramatta gondwana land australia requesting the true bill of sale and rebuttal, knowing that these lands were gifted to sovereign guardian mauri king te ruiki kawiti (112 acres) by the sovereign burramarragal chief corrangie in 1811, documented by the rev samuel marsden in his private and public journals, to this day and beyond.
13. To this day, no-one in a corporation or government has been able rebut our reclaim from 16.2.2012 to today that the mauri nation were given "kaitiakitanga", guardianship and of these lands named rangihou.
14. i am fully aware that this land gifting of 'kaitiakitanga' guardianship, reverend samuel marsden witnessed this and privately documented it in his private and public journals as follows: "During their brief visit to Parramatta¹, kawiti and his companions visited Ruatara's farm, where he had planted wheat, peas and beans. They marked a line across Marsden's land², cutting notches in the stumps of trees with a knife³. When he asked them what they were doing, they answered that they were marking out a farm for Kawiti⁴, who would return as soon as possible with one hundred men to work it⁵. Marsden replied, 'I would give him as much Land as he liked, and he might begin tomorrow'⁶ a response worthy of a rangatira⁷. He was hoping that by introducing a variety of crops to these men, a more settled and peaceful style of life might be established in New Zealand. Attached to this journal entry was a hand drawn picture of land map in Parramatta
15. i affirm that i, was the giftee of the unique document to crown, stating that james ruse, a thief, a convict settler, was given the first ever land grand in australia's history of 30 acres, title grant vol. 1 page 1 register generals title reference, february 22nd 1792 named experiment farm by governor phillip. This document standing alone, absolutely confirms that no true bill of sale for any land in australia exists and the simple fact that all land was stolen from the originee people, starting with the barramarragal people. James ruse then sold the land a year later which was the beginning of the illegal sale and trade of originee lands in australia as we know it today, as researched by my late wife kathryn maria pumfrey (direct lineage to the brother of sir joseph banks, 1st Baronet GCB, PRS (24 February [O.S. 13 February] 1743 - 19th June 1820) botanist. Attached and marked as annexure r is a copy of the james ruse document proving the land was stolen.

16. i am fully aware that the parramatta city council records only date back to 1861 as i was previously employed as a contractor for parramatta city council, therefore this unique and rare original document is not in their possession and will be a shock to the parramatta city council as the maxim "cuius est solum, eius est usque ad coelum et ad infernos" (whoever owns the land owns it all the way to the heavens and to hell) is said to apply as the government never purchased the land, it was stolen, it was granted through the flick of a pen, hence why crown stands, guard and protects these sacred lands that were gifted to the mauri nation 1811.

Sacred and Holy Consecration ceremony

17. On the 17th march 2019 due to legal and lawful occupation, the holy consecration ceremony at rangihou sacred lands parramatta took place at 11am. Besides myself, barramarragul tribal elder richard green and tribal elder mudd and ngati rangihou corrangie hapu , in attendance was mr noel doan (waratah soccer club), mr kerwin meldrum representing as manager for parramatta city council, mrs meldrum (private) and ms meldruym (private). Not in attendance was mark stapleton, scott morrison; and gladys berejiklian. Mr kerwin meldrum, an agent for parramatta local council and noal doan participated in the sacred and holy ceremony; ate the sacred bread that was secret and pleasant; drank the holy water infused with pounamu; place a sacred stone (land mark) on the stone pyramid around the woman's originee digging stick; assisted in planting the nz flax plant of old; and hung a personal message in the tree for tawhitematea (god of the wind). Mr kerwin meldrum documented all the sacred relics, mauri carvings, there position and their tapu (spiritual restriction) significance sending it via text to crown as his consent to being a party to the consecration ceremony and his personal commitment to ensuring that the sacred relics are not desecrated or violated. All those that attended and participated in the consecration ceremony were a party too witnessing and declaring the lands 'sacred and holy' with land marks and sacred relics placed strategically to commemorate the sacredness, holiness and tapu (spiritual restrictions) status of the rangihou lands. Mark 19686 spoke with noel doan and asked if he wanted to remove his property from the building. Noel doan stated "i trust you, i'll pick it up on friday as stated on this notice at 3.30pm" the notice was in his pocket, which he had removed prior to the ceremony. Attached and marked as annexure x is a copy of the notice to the waratah club. Attached and marked as annexure cc is a copy of the consecration ceremony booklet.
18. Confirmation of our intentions to invite dignitaries, and standing as office of the crown, is a letter from geoff lees, state member for parramatta dated 1st april 2019 with his apology for being unable to attend the inaugural consecration ceremony. Attached and marked as annexure dd is a copy of the letter from geoff lees.
19. Press release Lands reclaimed by crown at rangihou, parramatta 208 years later 12th february 2019. Attached and marked as annexure ee is a copy of the press release.
20. Press release lands reclaimed by crown at rangihou, parramatta 208 years later 17th march 2019. Attached and marked as annexure ff is a copy of the press release.

Threats, intimidation, trespass and from unknown private citizens

21. During my time on the land, i was active in maintaining the cleanliness of the abultion block and lands as it was not kept in a good condition for public use by the council or the alleged soccer club. In fact is was a disgrace and fit for public use.
22. On thursday 21st march 2019 from 9.50am i arrived at rangihou and witnessed six unknown men surrounding my hapu members who i soon found out identified themselves as constable k

ballard, constable c. hepburn, sergeant david kassavian from granville police station; phil littlewood, noel doan and andy giannotis. i did know phil littlewood as i had dealt with him through being a contractor at the parramatta city council. They disrespectfully entered our home, our domicile, office of the crown, paremata rangihou sovereign nation, te kotahitanga rangihou marae via my 143 george street driveway, rangihou, parramatta uninvited; without identification; without a rebuttal notice, without documentation and without a warrant.

23. i was soon entrapped along with the other members of our hapu under the gazebo by constable c. hepburn and constable k. ballard.
24. Constable c. hepburn then asked "where is the notice to say that you can occupy the land?" crown stated "the council has all the paperwork." Constable c. hepburn then said "surely you have some paperwork here, ownership papers, and occupation papers." crown informed constable hepburn that copies were posted on the building and that he could have a copy. Lady spider ward then said to constable hepburn "if i give you notice saying that i'm going to do it in 30 days, and i wait 50 days for a response, and nothing happens, i am then by law allowed to move onto the next step. Which is if i say i am going to occupy and there's no rebuttal and i am occupying and there's no rebuttal and then i'm occupying, and there's still no rebuttal, you're the first rebuttal I've seen - as a mother of four, if i tell what i am going to do and i give you fair notice and i post the notices, that is my intention to do it, but the president of the club told crown that he had three notices that were put up, and when he approached parramatta city council, that it was rubbish, ignore it. So the only person that parramatta council spoke to was the tenant of the building on our rangihou lands. So bearing that in mind we again furnished them with what they needed when noel came and it was so wet on sunday, it was a lovely ceremony that noel was a part off, he placed stones around, we had photos taken with me. I can only speak about what happened with me. i spoke to him at length on Friday, i spoke to him at length on the phone, and spoke to him at length on sunday and i said when will you be able to pack up the lot, will you take your possessions on friday? i asked him did he want some help; but friday seemed like a good day for everybody, parramatta council has a brand new ceo who may not be abreast with everything however with the invitations (holy consecration ceremony) were all sent out by registered mail so somebody has to sign at the other end. i mean its piles of information and i think you guys kind of probably at this moment drew a very short straw cause there's such a lot of information to take on because we were more than happy because we can replace the signs at the moment, but for you to take any of the signs that you need to take." Constable hepburn declined to take any of the trespass notices, notices or certificates of non-response.
25. Constable c hepburn left our presence however saw him making a call to base to call in a sergeant. Very soon after that phone call, maybe five minutes, a man presenting as sergeant david kassavian from cumberland police arrived at our rangihou sacred lands and domicile.
26. Constable ballard proceeds to ask ngati rangihou corrangie hapu for identification. Lady spider ward presented her licence. i presented my licence. Lady spider ward on behalf of crown presented her sovereign travel warrant. mark jenkins presented his office of the crown identification No 19686 and same with violet. I took note that neither the sergeant or the constables took identification details from any of the other men (respondents).
27. Lady spider ward stated to the constables " i have done due process and still nothing and even now when we offered a meeting to sit down and talk." Constable hepburn said " couldn't you supersede the council, because land claims come from a national level, go beyond it, go to state level and national level, they can't gift you the land, regardless, they can't do it." crown stated that they have already acknowledged the paremata sovereign nation." Lady spider ward said " nobody asked them too." Constable c hepburn said "they can't do anything to help you with this." Lady spider ward then said "that's the issue here to courtlessly tell them exactly what was going on and where it would go and that's not a problem for it to go to court. Everybody hopes that

reconciliation can be made at least with an opening dialogue. No dialogue and then to arrive offended on the day, doesn't make any sense." Constable c hepburn then said " if they don't respond to you, they're not going to respond to you" Lady spider ward said " but they did." i added to that saying "they acknowledge the paremata sovereign nation." Constable C Hepburn said " what have they stated about it." Lady spider ward said " nothing, because they haven't responded to the correspondence, because they haven't we have gone ahead with what we said we were going to do according to the guidance of the law which is you give notice that you're going to do it, then given second notice which i can't remember what it's called, 3rd, then you do it and then on Friday that gentleman over there (pointing to noel) i invited, i spoke to him on friday on the phone, he told me that's who he was and he confirmed that on sunday, not only did i talk to him for the better part of an hour, he came along with a council representative, kerwin, and both of them a council representative and the club member took part in the ceremony of the consecration, so we can't have a foot in two camps here and then get nasty (change their masks)." Constable hepburn then said " did they come to observe what's going on?" Lady spider ward said " no, i extended an invitation for him to come and join in the ceremony." Constable c hepburn said " that doesn't galvanise the idea that you can occupy the land, we operate by court orders, not ceremonies." Lady spider ward said " i appreciate that and i suppose one of the difficulties is what we do now because it doesn't need to be like a mexican standoff. i don't believe that we have broken any of the appropriate laws. So on sunday when noel was here i said please take everything out from of the building and he said, oh no its ok. i said is there anything important things likes a cash box or anything like that and that was in a circle of people who verified that the offer was made. He said "i trust you, it isn't a problem."

28. Lady spider ward informed the constables that "yesterday an unfortunate little man turned up who is apparently the secretary of the club, he went in and he took, i guess important things, a laptop, and cash tin." mark jenkins stated that he took "eftpos machine, laptop, cash box and soccer balls for training that happened last night." This man was andy giannotis.
29. Sergeant david kassavian, from cumberland police station approached us and the ngati rangihou corrangie hapu of the lands with three men who they had been colluding with on the land. The other men were phil littlewood (no identification), noel doan (no identification) and andy giannotis (no identification). Now there were six men standing over us as i stood with the ngati rangihou corrangie hapu, (five of us) under the gazebo that they had entrapped us under. i felt extremely intimidated, fearing for my safety, for my wife and the four year old child with us, a feeling of being ambushed, not really knowing who these men really were or if they were who they claimed to be. Phil littlewood as a council agent then stepped into crown and said "i'm asking you to leave the property immediately." Crown said to him "under what authority." Phil said "under council's authority." Knowing where this is leading and the fact that i know that he is about to commit an act of treason, crown asked phil littlewood "and what's council's authority." Phil littlewood said " i don't have to give definition of council's authority, the books and the legislation and all that stuff is all we need." crown then said "you need to give us something to tell us where you get your authority from because i've been asking you this for nine years" Lady spider ward then said " i'm sorry let's not get into a battle more recently since christmas there has been registered correspondence to your office and there has been no answer one way or the other, please not talk about things that are perhaps better discussed in court." crown then said to phil littlewood "but what authority because the constitution doesn't recognise local government, so who are you, who is the council, is what crown was asking? has Parramatta city council got an ABN?" Phil said "yes." crown said "so it's a trading company? Phil said "no." Lady spider ward then said "i know that a great deal of correspondence has gone through your office, even your associates would have had it in their hand and i suppose it should have come to you." Phil then said "if i could just explain, I'm an operations manager i do cars and those sorts of things; i don't hold any position of authority as far as anything here." Lady spider ward said "so you don't have the authority to ask

us to leave." Phil then said "yes i do, it was given to me yesterday by a council solicitor." Lady spider ward said "unfortunately do you have that in writing, do you have it with you."

30. None of the men would view any of our original documentations; nor would they interview me or any other ngati rangihou corrangie hapu according to law; and nor did any of them take written statements. This led me to believe that these man did not know that they were impersonating government agents but really only working for private trading companies, unaware of the personal liability to self and to their family.
31. Sergeant david kassavian presented with overwhelming confidence of a pre-judged guilty verdict, acting as the judge and acting as the jury on our sovereign land, ready to trespass and arrest us within a minute of announcing himself to us and the ngati rangihou corrangie hapu, without a written warrant. He too was unaware that regardless of corporate legislation protecting parliamentarians, that he and his constables were still private men, and as such are outside the australian government corporation's protection. They too are now individually answerable to those they have hurt, under common law.
32. i then witnessed andy giannotis trying to create fear and aggression and stir up trouble by intimidating us and entering our personal space under the gazebo, as seen on our video. He was making snide remarks, lurking, pushing my personal boundaries, making sledging comments, which i couldn't quite understand and trying to create angst without any forethought of the presence of the 4 year child. i witnessed andy picking up two of the cones next to the gazebo and i informed him that they belong to us and then he turned around to us and andy then said "how does it feel to have some of your stuff stole". i then said "as previous tenants of this establishment, as far as im concerned i would have kicked you out as you do not keep it in a fit and proper condition. i have been cleaning change rooms and toilets on instruction from crown for the last 2 days." then i went and stood closer to my hapu. andy decided to follow me. andy was sledging me and crown, trying to bate me into a verbal argument. andy mentioned the theft of money from his office. the seargeant asked andy was money stolen and was he prepared to state how much. andy declined. then andy walked away. violet which i immediately put an end to it, by telling andy to calm down. Attached and marked as annexure jjj as a copy of photos of andy acting in an intimidating manner.
33. The only peaceful consideration on the day for the ngati rangihou corrangie hapu of the land was to keep everyone safe, was for us to leave our lands peacefully, to leave oiur domicile peacefully, but under duress. Sergeant david kassavian did not want to know anything or sight anything. Sergeant david kassavian did not want to hear our voice of reason or the true situation. It was inappropriate, disrespectful and disconcerting how he didn't get any information from us. i believe that sergeant david kassavian knew phil littlewood personally because he did not have any identification or validating documents to support what he was saying about getting his authority from the legislation and stuff.
34. Sergeant david kassavian , constable k ballard, constable hepbern, phil littlewood, noel doan and andy giannotis, then proceeded to assert their corporation authority and threaten all of us with arrest, trespass and fraud using bullying and intimidation tactics.
35. At no time when the police entered our private property did they adhere to the Law Enforcement (Powers and Responsibilities) Act 2002 as there was not a:
 - a) Breach of peace.
 - b) Person suffering or anyone in imminent danger of suffering significant personal injury.
 - c) Serious violence offence being committed.
 - d) Search conducted of our property.
 - e) Occupiers notice in their hand or given to us.

- f) Trespass notice in their hand or given to us.
 - g) Search warrant in their hand or given to us.
 - h) True bill of sale in their hand or given to us.
 - i) Rebuttal notice in their hand or given to us.
 - j) There was no resisting of the police.
 - k) There were no items seized.
 - l) Reason to use reasonable force.
36. It seemed to me that the police entered our private property unlawfully without a search warrant. It seemed that unlawful police misconduct and collusion was in full force.
37. Constable k. ballard and constable c. hepburn continued with his trespass statements regardless of the fact that we had a true document outlying a common law deed of grant on the table in front of us, which was absolute documented proof that the land was stolen from the originee people in 1792, Australia's first ever land grant. The question of proof that the land was stolen from the originee's was now on the table. The question of a company (abn), without authority owning this land was now on the table. The question of inconsistent laws without royal assent was now on the table. Section 106 to 109 states that federal law prevails with inconsistency. Attached and marked annexure nn is a document on how & when did the government commit treason?
38. It did seem out of place that the constable demanded paperwork, ownership papers or occupation papers from us and nothing from the defendants. It seemed that there were one set of laws for them and another set of laws for us. We had outlined our process in the notice to the police document that he had in his hand but would not take any notice of it. i call on the judge to ask the police for a copy of:
- a) The set of laws that were administered to the defendants on the day.
 - b) The set of laws that were administered to the plaintiffs on the day.
 - c) The reason for the bias and prejudice administration of laws on the day.
39. My question to the presiding judge on this matter in relation to phil littlewood is:
- a) "what authority does phil littlewood actually have?"
 - b) "where did phil littlewood get his authority from, to tell us to leave our property immediately?"
 - c) "why didn't the police obtain a search warrant or valid trespass warrant from phil littlewood?"
 - d) "what happened to the meeting that we had discussed early in the week to be held at the Macquarie university?"
 - e) "did phil littlewood have a trespass notice or move on order?"
 - f) "did phil littlewood have a search warrant to enter our lands?"
 - g) "did phil littlewood have a notice of rebuttal and true bill of sale for the land?"
 - h) "did phil littlewood call the police?"
 - i) "what are the Parramatta city council guidelines and procedures for moving, forcing or evicting someone of land?"
 - j) "where is the letter of authority from the council solicitor that phil littlewood claimed he had?"
 - k) "what is phil littlewoods position in the council?"
 - l) "why was someone like phil littlewood called in to address and deal with a matter of national cultural significance?"
 - m) Why didn't the ceo come and speak with Lady Crown and the Ngati Rangihou Corrangie Hapu about the occupation?"

40. My question to the presiding judge on this matter is:

- n) "why didn't the sergeant speak to each individual separately to collate evidence of who was in the wrong and who was in the right, in accordance with police interview standards and procedures and the evidence act?"
- o) "according to law, why didn't the police undertake correct police procedure according to law, and according to the Police Powers and Responsibilities Act.?"
- p) "in order for the police to enter without a search warrant, was there a breach of peace?"
- q) "in order for the police to enter without a search warrant, was there a report of a person suffering or anyone in imminent danger of suffering significant personal injury."
- r) "in order for the police to enter without a search warrant, was there a serious violence offence being committed."
- s) "upon entering without a search warrant, why was a search not conducted of our property."
- t) "in order for the police to enter without a search warrant, did the alleged council furnish the police with an occupiers notice?"
- u) "why didn't the police stop the cars from parking on our lands?"
- v) "why did the police not furnish our hapu with a search warrant from a court judge, which would have allowed them to lawfully conduct a search, gather evidence and video us?"
- w) "where was the police trespass warrant?"
- x) "who called the police and for what reason - the soccer club or phil littlewood?"
- y) "where was the defendants standard of proof?"
- z) "where was the defendants clear, convincing evidence or proof beyond reasonable doubt?"
- aa) "where was the defendants legal directive?"
- bb) "why did the police not ask phil littlewood, noal doan and andy gianntis for their proof of identity, ?"
- cc) "why did the police not ask phil littlewood, noal doan and andy gianntis for their notice of rebuttal, true bill of sale or legal directive?"
- dd) "why did the police take the verbal word of phil littlewood, noal doan and andy gianntis when we had nine years of proof in front of us, available for them to look at?"
- ee) "why did the constable's ask the plaintiffs for our proof (which nine years was presented in a published book) but not phil littlewood, noal doan and andy gianntis?"
- ff) "why did the constables tell us we were trespassing when there we visible laminated signs on the buildings and on our gazebo which stated that it was private property and the no trespassing sign?"
- gg) "why did the police from granville attend the scene, as opposed to the parramatta police?"
- hh) "why did the sergeant come from cumberland police as opposed to parramatta police?"
- ii) "did these men all know each other, as they were congregating like ole mates and shaking hands?"
- jj) "was this act premeditated as security guards were already in place, standing at the albion hotel and just waiting to be called onto the land?"
- kk) "was this act premeditated as the locksmith had arrived, just waiting to be called onto the land?"
- ll) "why have we not been charged with trespass, break and enter, theft, operating a business and fraud?"
- mm) "why was the secant not listed on the event lodged on the police database?"
- nn) "who was the police officers queen that he swore an oath too?"
- oo) "why did the police believe phil littlewood over the attorney general letter clearly stating that the constitution does not recognise local government?"
- pp) "has phil littlewood got authority over the attorney general?"
- qq) "have the constables got authority over the attorney general?"
- rr) "why did the police not acknowledge the letter from their acting police commissioner recognising my status as a sovereign and domicile on the land?"

- ss) "is the police commissioner their boss?"
- tt) "are the police required to acknowledge correspondence written by the police commissioner and acting police commissioner?"
- uu) "why did the police not acknowledge the letter from HM Queen Elizabeth recognising my status as a sovereign and domicile on the land?"
- vv) "are the police required to acknowledge correspondence written by HM Queen Elizabeth advisors considering their insignia displays a crown signifying Her Majesty?"
- ww) "why did the police not acknowledge the letters from the Parramatta city council recognising my status as a sovereign and domicile on the land?"
- xx) "why did the police not acknowledge the letters from the lord mayor of parramatta recognising my status as a sovereign and domicile on the land?"
- yy) "why did the police not acknowledge the letters from the premier recognising my status as a sovereign and domicile on the land?"
- zz) "why did the police not acknowledge the letters from Mauri and Originee leaders recognising my status as a sovereign and domicile on the land?"
- aaa) "why did the police not acknowledge my claim of right?"

41. At approximately 10.40am we, the Ngati Rangihou Corrangie Hapu were forced and intimidated into leaving our domicile, from Rangihou sacred consecrated lands, our home, our country, our sovereign nation, our marae, under duress. We took the path of peaceful reconciliation because this is not our way, as it is the way of heartless corporations (dead men speaking).
